# ***Fishing & Fishing Regulations***

## **Licence & Salmon Conservation Stamp:**

All guests must hold a valid Tidal Water Licence and Salmon Stamp. The cost is added to your invoice and we will purchase your licence and stamp for you. If you have purchased your own, please provide the licence number to [info@riversinlet.com](mailto:info@riversinlet.com).

## **Transporting Sport Caught Fish:**

When transporting sport caught fish, a valid fishing licence/stamp must accompany you & your fish box.

**Do not leave the lodge without inspecting your fish box & signing for the contents.**

## **Guiding:**

Our trips are guided and/or unguided. Guides must be pre-booked & there is an additional charge for this service. To pre-book a guide, call 1 (800) 663 2644 or e-mail: [\*\*info@riversinlet.com\*\*](mailto:info@riversinlet.com)

## **Salmon:**

We expect our **salmon catch possession limits** in 2017 to be as follows: EIGHT SALMON - A combination of 4 chinook (king) (2 per day possession), 8 coho (silver) (4 per day possession), plus other salmon (pink, chum) with a **total salmon possession limit of 8**. We have had a possession limit of eight salmon since we opened in 1984. There is unlimited catch & release of salmon. PLEASE NOTE THAT LIMITS MAY BE SUBJECT TO CHANGE BY DFO - DEPARTMENT OF FISHERIES & OCEAN.

## **Halibut & Bottom Fish:**

We expect the halibut possession limits in 2017 to be two (one per day). Bottom fish such as lingcod, red snapper (yellow-eyed rockfish) and rock cod limits remain generous. (A Flounder is not a Halibut!) We encourage conservation of these species at all times. **Bottom fish usually do not survive catch and release.** PLEASE NOTE THAT LIMITS MAY BE SUBJECT TO CHANGE BY THE DEPARTMENT OF FISHERIES & OCEANS CANADA.

## **Whale Watching and the Species at Risk Act:**

It is not unusual to see pods of Humpbacks, Orcas and Grey whales feeding close to the lodge. BOATERS are required under the Canadian Fisheries and Oceans guidelines to reduce vessel speed to less than seven knots while within 400 metres/yards of the nearest whale. Do not get closer than 100 metres/yards.

## **BAGGAGE: IMPORTANT!!!**

**Tag your bag with contact information!**

Keep your fishing licence, identification and car keys on your person!

**To avoid having to leave items behind, baggage must be kept to a MAXIMUM of 25 lbs. (including carry-on).** Bring a **soft-sided bag** (NO SUITCASES). It is almost impossible to load large, hard-sided suitcases into the floatplanes. If you are staying at a Vancouver hotel, you may want to leave luggage there that you do not need at the fishing lodge. Locked storage is available at Seair Seaplanes. Do not bring raingear unless you are very large or very small. Warm clothing is a must on the water, but you may need lighter clothing when you are on the dock or beach where you will be sheltered from the offshore winds.

# LODGE PROCEDURES & FACILITIES

## **ARRIVAL & REGISTRATION:**

The seaplanes land on the water outside Sportsman's Bay and taxi to the dock. Our staff welcomes you on the dock before you proceed to registration in the dining room. This is where you will find tea, coffee and complimentary cold beverages (including beer). During registration, lunch is served in the dining room. Guest services personnel will take liquor orders (wine, beer & etc.) before you are shown to your double occupancy room (triple available on request).

## **FISHING LICENCE & SALMON CONSERVATION STAMP:**

You are obliged by Fisheries & Oceans Canada (DFO) to hold a current saltwater fishing licence and annual salmon conservation stamp. This must be with you when fishing & in possession of sport-caught fish. Immediately after you catch a Chinook/king salmon, halibut or lingcod, record it in pen on your licence. We are in Area 9. Also, if you catch a halibut over 133 cm/52 inches this is recorded in pencil in the DFO logbook.

## **SAFETY & FISHING CLINIC:**

After registration, there will be an extensive fishing & safety clinic. To satisfy the Canadian Government's **Boating Rules & Regulations**, and for a successful fishing adventure at Rivers Inlet, you must participate in this clinic. If you do not have a Transport Canada Pleasure Craft Operator Card (PCOC), you must complete a Transport Canada Renter's Form at the lodge showing you understand boating rules and regulations. Boats may not leave the dock until this seminar is over. Youths under 16 years may not operate a boat alone.

## **MEALS:**

Breakfasts, soups, lunches, dinners and snacks are prepared by two qualified chefs. Meals are buffet style & usually served in the dining room. Late night snacks are served in the lounge.

**FACILITIES:** Small en-suites are located in most of the accommodation rooms. There are also two large bathrooms near the drying room where you locate your raingear. Also, there are two restrooms near the guest lounge. Bathrooms have electric plug-ins. We provide hair dryers and curling irons. Heat for the water is from propane heaters and we have two generators for power.

**WATER:** The fresh water at the lodge is known as Canadian Moor Water and it is an amber color (tannin). We have installed an extensive fresh water plant to take out this tannin in the water. Bottled water for drinking is available, so bring your water bottle with you. Sportsman's Club water bottles are available for \$5 each.

# LODGE PROCEDURES & FACILITIES CONT'D

## BOATS & BOAT TRAVEL:

ALWAYS WATCH FOR HAZARDS (logs, rocks, etc). The boats in our fleet are known as “Stingers”. They have been built for us in Campbell River, B.C. with 7 hand-laid layers of fibreglass. There are compartments for storage as well as for the bait and catch. The boats are equipped with downriggers. **Boats are not allowed on the water during darkness!** When there is enough daylight to see hazards in the water, you may go out to do as much or as little fishing as you like. **Do not to take the boats to shore! Do not enter a fogbank at any time!** Should the fog roll in, use the GPS to head for the shoreline and the lodge, or remain where you are. Do not wander off between the islands unless you consult with our crew about the location of rocks under the water. If you hit an object in the water, please tell us so that we can check the boat and motor. For your safety, and that of the boat & motor, do not rev the engine to capacity.  
WEAR YOUR LIFE-JACKET AT ALL TIMES.

**MOTORS:** The Motors on our boats are 40 hp Yamaha Four Stroke. If you catch line in the propeller, please be sure to tell one of our crew so that damage to the motor can be avoided. Watch out for logs!

## FISHING & FISH TALLY NUMBER:

For the duration of your trip you will have a **numbered boat** assigned to you. The boats are equipped with fishing gear, which is checked regularly by our crew - also check this yourself from your checklist. Your boat will be re-supplied and cleaned every time you return to the lodge. For your safety & for ease of cleaning, wipe down the boat after landing a fish - keep the bilge clear of debris to allow the bilge pump to activate as needed.

You will be given a **FISH TALLY NUMBER** on the Fish Tally Board. Use this number on all caught fish. In LARGE PRINTING, put this number & your name on the fish tag along with “F” for filet or “W” for whole.

Keep track of your fish. When you catch a Chinook (spring/king), halibut (length) or lingcod, you should mark your licence noting the day and **Area 9**. Please be sure to write out a **tag for each fish with FULL NAME & FISH TALLY NUMBER** & leave the tag with your fish in the fish tub. You may want some fish processed by **St. Jean's Cannery**, these fish should be marked “W” for whole.

## GUIDES:

Guides are not available unless booked and prepaid. To provide a varied experience guides will be rotated between the guided guest boats. The first day of guiding is when you arrive on Thursday/Sunday & is approximately 6 hours. On other days guiding is for the morning and your choice of either afternoon or evening. There is no morning guiding on Thursdays and Sundays but you may take your assigned boat out for fishing until 8 am. There is an extra charge for a guide in a Whaler/Scout, otherwise regular guide charges apply using the Stinger as a guide boat. Do not tip guide staff separately.

# LODGE PROCEDURES & FACILITIES CONT'D

## **PROCEDURES:**

The mornings are quite civilized. A wake-up call is made about 15 minutes before breakfast. Also, there are boat snacks and urns of coffee and hot chocolate available to take out in the boats

**On your day of departure**, there is a time change. Rooms are vacated & luggage deposited at the office by 8:30 a.m., boats and rooms are then prepared for the incoming guests.

We cannot be responsible for fish boxes lost once they have left the lodge.

***DO NOT leave the lodge without inspecting your fish box & signing for the contents***

**SMOKING:** There is NO smoking anywhere inside the lodge. Smoking is allowed OUTSIDE ONLY. At the guest lounge there is one picnic table designated for smoking, the other two are non-smoking. Use a receptacle for butts at all times & do not throw into the ocean. There is sawdust under many of the docks, so please do not put cigarette/cigar butts between the deck planks, or leave burning materials unattended anywhere.

Everyone's safety and comfort is important to all of us. Vaping is discouraged due to the large plumes of vapour/vapor this creates, leading us to think the lodge is on fire!

**SOUVENIRS:** An assortment of clothing with the Sportsman's Club logo is available in the Gift Shop/Office. We accept Visa and Mastercard.

## **GRATUITIES:**

All the lodge staff share the gratuities which average around \$300 per guest.

Your fish will be securely boxed in a waxed, airline approved box. Don't forget to pick-up your box of fish in Vancouver! We cannot be responsible for your fish once the box has left the lodge.
